

## **PREPARATIONS HAVE BEGAN FOR THE 2010 NATIONALS AT NEWNHAMPARK PLYMOUTH**

To ensure a fantastic Team Recovery Pit & Comp Course is set for the 2010 National at Newnham Park Plymouth, a dedicate bunch of Cornwall & Devon LRC members have braved the elements over the weekend of the 11/07/2009 to cut out the course with heavy plant. This will ensure a good stable mature course is laid in preparation for the event.

With the weather against them tree's where cut back, holes were dug and tracks laid, keeping this maintained until the event will ensure the course will withstand all the vehicles using the course without it becoming un-stable.

Entries for the 2010 Nationals at Newnham Park Plymouth are well under way, the entry form can be found on the Announcements tab on our web-site..
